# COMPANY SPECIALISED IN STORAGE AND BLENDING OF FROZEN OR CHILLED FRUIT JUICE CONCENTRATES

The company is located in the Netherlands and specialised in storage and blending of frozen or chilled fruit juice concentrates and other chilled or frozen food products. The location of the company offers quick and easy access to the main arterial routes of Europe, while the products come in from all over the world.

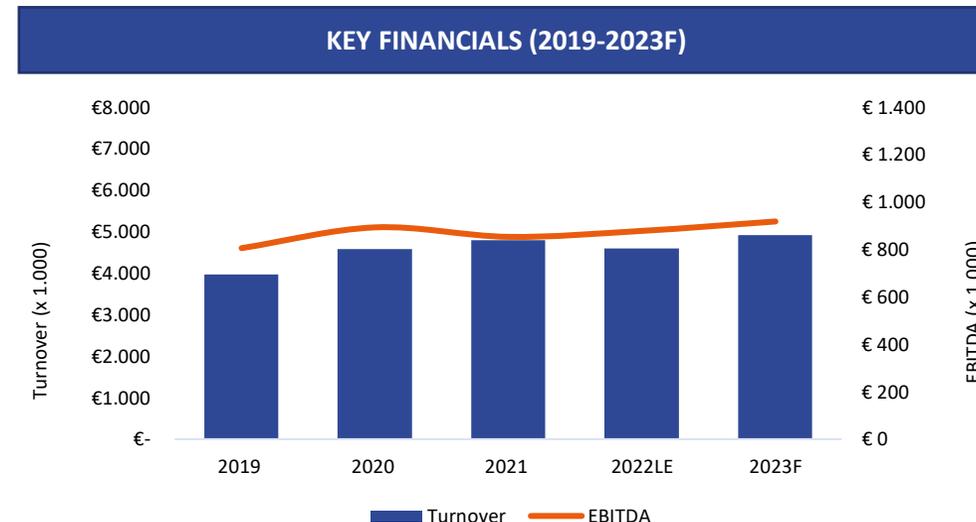

The real estate and machinery of the company is also part of the transaction. The company has two extended and renewed facilities with modern and state-of-the-art machinery.

The company has rooftop solar panels on its production sites, which leads to large savings on energy costs for the company and contributes to the sustainability of the company.

The company has achieved a very stable net turnover and EBITDA level in the past years, due to the utilization of the complete production capacity with its current customer base.
